

MIDDLE-OF-ROADERS

Defeated by the Bryan Adherents in Fight For Chairman.

SENATOR ALLEN IS SELECTED.

Silverites Spend the Day in Speech-Making, Waiting to Confer With Populists.

WILL ENDORSE BRYAN, SEWALL.

People's Party at Last Get Down to Business—General Weaver Made Chairman of the Resolutions Committee—Report of the Subcommittee on Platform, Which Represents a Majority of the Full Committee, and Will Probably Be Accepted Without Change—Singing, Speaking and Various Other Forms of Entertainment Was the Order of the Day Sessions at Both Conventions.

St. Louis, July 24.—The Bryan supporters are jubilant. They demonstrated after a stormy day in the Populist convention that they had a majority of 104. They perfected their permanent organization, installed their candidate, Senator Allen of Nebraska, as permanent chairman and took charge of the machinery of the convention and the committees. The silver convention at Music Hall simply dawdled along listening to the speeches and transacting trivial business in pursuance of their prearranged program, remaining in session in the hope of influencing the action of the other convention in the direction of endorsing silver and the Chicago Democratic ticket.

There were two sessions of the Populist convention, a morning session of two hours and an afternoon session of six hours. The latter carried the convention into the night. Both were turbulent and noisy, but the tumult was confined to the delegates on the floor, the galleries as on yesterday being practically empty. A bitter feeling manifested itself among the middle-of-the-road faction which found vent in several wild demonstrations and counter demonstrations. The morning session

SENATOR ALLEN.

was a virtual blank so far as business was concerned. The report of the committee on credentials was not ready and the convention listened to a baritone from Oklahoma and a sweet singer from Arkansas render some campaign parodies on popular ballads.

There was also a dramatically arranged "middle-of-the-road" demonstration which failed to arouse much enthusiasm, despite its theatrical accessories.

Delegate Washburn of Massachusetts attempted to spring a resolution on the convention to bind the delegates to abide by the result, whatever it might be, but he was howled down, and his resolution was laid peacefully away on the back shelf.

It was at the afternoon session that the tug of war came which ended in the disastrous defeat of the straight-outs. By a narrow majority they beat the Bryan forces early in the session on the determination of the Cook county contests. Some of the Bryan men were alarmed and could with difficulty be convinced that the battle was not lost.

This preliminary defeat of the Bryan forces was due perhaps to overconfidence in their strength. They undertook to defeat the majority report of their own committee in the Chicago contest. Only seven actual votes hung in the balance. The 14 Taylor delegates who held the seats were Bryan men. The report of the committee decided to ally bitter feeling, if possible, by seating both sets of delegates and dividing the vote. The contesting delegates were understood to be for Debs. At the last moment the Bryan managers concluded to risk the dangerous experiment of trying to force the rejection of the majority report.

Some of their followers refused to stand by them and the result was defeat by a vote of 665 to 642. It was then 6 o'clock and the middle-of-the-road leaders attempted to secure an adjournment, hoping that the effect of the victory could be turned to account before the delegates reassembled. But the Bryan leaders prevented this strategic move. They determined to push on, realizing fully the disheartening effect of drawing off after having had their outposts driven in. Some of the middle-of-the-road men, who believed their victory was genuine, were also eager to

continue the fray. But the promise to the ear was broken to the hope.

The report of the committee on permanent organization was brought forward. The majority recommended the selection of Senator Allen, the ponderous statesman from Mr. Bryan's state, who, during the battle over the repeal of the silver purchasing clause of the Sherman law made the longest speech on record in the senate. He held the floor for 19 hours. The anti-Bryan men pitted against the Nebraska senator James Campion of Maine, a man practically unknown even to the "middle-of-the-road" contingent who entered him in the lists. Still they rallied to his support every vote at their command. They were defeated, 753 to 564.

The following list will show the geographical location of the Bryan strength, the states being classified according to the majority of their votes:

For Allen—Colorado, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oregon, Pennsylvania, South Dakota, Tennessee, Utah, West Virginia, Virginia, Wisconsin, New Mexico, District of Columbia and Arizona.

For Campion—Alabama, California, Georgia, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Rhode Island, Texas, Vermont, Washington and Indian Territory.

The votes of North Carolina, Wyoming and Oklahoma were equally divided. The announcement of this triumph was the signal for an uproarous Bryan demonstration which lasted 18 minutes. Senator Allen's speech as permanent chairman occupied an hour. In many respects it was bitter enough to suit the most radical. When he finished, the convention adjourned.

The situation remains practically unchanged. Although the Bryan forces are in control and his nomination or endorsement seems to be assured, the defeat of Sewall still stares them in the face. If Sewall can not be nominated along with Bryan the effort of the Bryan managers will be directed toward securing an endorsement of Bryan rather than nomination. The question of common electors is a complication which serves to tangle the skein which must be unravelled.

THE PLATFORM COMMITTEE.

General J. B. Weaver Was Elected Chairman—His Speech on the Issues.

St. Louis, July 24.—The committee on platform met at the Lindell hotel immediately after its appointment. General J. B. Weaver was elected chairman over Jerome Kirby of Texas, the vote being 22 to 21 in General Weaver's favor. Upon taking the chair General Weaver congratulated Mr. Kirby upon being so nearly on a parity with himself. He continued his speech by saying that the money question was everywhere considered paramount in the present campaign, and that the People's party had made it such. The question had split the two old parties, and there was no doubt of the opportunity presented to the Populists. He divided the demands of the party on this question as being the free and unlimited coinage of silver; the issuance of legal tender paper money, and the abolition of the national banks. He said the transportation question was also essential as was the question of the election of United States senators by the people.

While he felt, he said, like congratulating the Democrats upon their recent action, he wanted to say that he believed the People's party should plant itself on its own platform. He was for the principles of the party first and for the party autonomy next, but he desired that it be understood that he did not propose to give up either. There could be no doubt that the principles which he had enunciated were essential ones, and he thought there would be no difficulty in concluding the work today.

The committee decided upon the appointment of five members on each preamble, transportation, land and direct legislation, and authorized the chairman to make the selections. The committee then took a recess until 2 o'clock. The selection of General Weaver as chairman of the committee is construed into a Bryan victory by the advocates of the endorsement of the Democratic nominee. Mr. Weaver is chairman of the Bryan caucus and wore a Bryan badge when he took the chair.

Out-and-Outers Are Disgusted.

The "middle-of-the-road" men were utterly disorganized and disgusted last night. They held one of the most stormy of all stormy meetings held by these enthusiastic members of the Populist party. An attempt was made to pass a bolting resolution, and while it was being discussed by the hot heads, the more conservative men scurried out and got leaders who counselled moderate action.

These leaders and others tired the crowd out after while and the bolting resolution was withdrawn. The temper of the leaders seemed to be that all should remain in the convention until the close and if its action was not satisfactory, they could hold a convention, nominate candidates and adopt a platform of their own.

The shrewdest leaders say that not only will the convention endorse Bryan, but they believe Sewall also will be named with him. Late last night they were trying to organize, but the efforts seemed to be futile.

The Platform.

St. Louis, July 24.—The following is the report of the subcommittee which will probably be accepted by the full committee today:

Preamble—The People's party assembled in national convention reaffirms its allegiance to the principles declared by the founders of the republic and also to the fundamental principles of just govern-

ment as enunciated in the platform of the party in 1892, but recognizes that through the action of the present and preceding administrations the country has reached a crisis in its national life as predicted in our platform four years ago and at present prompt and patriotic action is the supreme duty of the hour. We realize that while we have political independence our financial and industrial independence is yet to be attained by restoring to the people's government the constitutional control and exercise of the functions necessary to that end, which functions have been basely surrendered by our public servants to corporate monopolies. The influence of European money changers has been more potent in shaping legislation than the voice of the American people. Executive power and patronage have been used to corrupt our legislatures and defeat the will of the people, and plutocracy has thereby been enthroned upon the ruins of Democracy. To restore the government of the fathers and for the welfare and prosperity of this and future generations we demand the establishment of an economic and financial system which shall make us masters of our own affairs and independent of European control by the adoption of the following declaration of principle:

Finance—First, we demand a national currency, safe and sound, issued by the general government only, a full legal tender for all debts, public and private, and without the use of banking corporations; an honest, equitable and efficient means of distribution direct to the people and through the lawful disbursements of the government.

Second, we demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1 by the United States without waiting for the consent of foreign nations.

Third, we demand that the volume of circulating medium be speedily increased to an amount sufficient to meet the demands of the business and population of this country and to restore the just level of prices of labor and production, and thereby establish prosperity and happiness for the people.

Fourth, we denounce the sale of bonds and the increase of the public interest bearing debt made by the present administration as unnecessary and without authority of law, and we demand a law absolutely prohibiting the sale of bonds and increase of the public debt, except in accordance with an act or acts of congress authorizing the same.

Fifth, we demand such legislation as will prevent the demonetization of the lawful money of the United States by private contract.

Sixth, we demand that the government in payment of its obligations shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and preceding administrations for surrendering this option to the holders of government obligations.

Seventh, we demand a graduated income tax to the end that aggregated wealth shall bear its just proportion of taxation, and we denounce the recent decision of the supreme court in regard to the income tax law as a misinterpretation of the constitution and an invasion of the rightful powers of congress over the subject of taxation.

Eighth, we demand that postal savings banks be established by the government for the safe deposit of the savings of the people and to facilitate exchange.

A true policy demands that the national and state legislation shall be such as will ultimately enable every prudent and industrious man to own a home, and therefore the land should not be monopolized for speculative purposes. All agricultural and grazing lands now held by railroad corporations in excess of their actual need should by lawful means be reclaimed by the government, and held for actual settlers only, and private land monopoly should be prevented by appropriate state and national legislation.

We condemn as a fraud the land grant of the Pacific Railroad company, through the connivance of the interior department, which robbed multitudes of actual and bona fide settlers of their homes and miners of their claims, and we demand legislation by congress which will enforce the exception of mineral land from such grants after as well as before patent.

Direct legislation—We hold that all governments derive their just power from the consent of the governed, and in order that the consent of the governed may be clearly ascertained, we order direct legislation under proper constitutional safeguards so that a five percentage of the citizens shall have the right of initiating, framing and specifying the laws and of compelling the submission thereon, and of all important laws, whether proposed by national, state or local legislatures, to a direct vote of the people for their approval or rejection.

Transportation being a means of exchange and a public necessity the government should own and operate the railroads in the interest of the people; to the end that all men may be accorded the same treatment in transportation and that the tyranny and political power now exercised by the great corporations, which result in the impairment, if not the destruction of the political right and personal security of the citizen, may be destroyed. Such ownership is to be accomplished gradually, in a manner consistent with sound public policy.

The interest of the United States in the public highways built with public moneys and the proceeds of extensive grants of land, known as the Pacific railroads, should never be alienated, mortgaged or sold, but guarded and protected for the general welfare, as provided by the laws organizing said Pacific railroads. The foreclosure of the subsisting liens of the United States on these roads should at once follow default in the payment by the debtor companies, and that at the foreclosure of said roads the government shall purchase the same, if it becomes necessary to protect its interests therein, or if the same can be purchased at a reasonable price; and the government shall operate said railroads as

public highways for the benefit of the whole people and not for the interest of the few, under suitable provisions for protection of life and property, giving to all transportation interests, equal privileges and equal rates for fares and freights.

We denounce the present infamous schemes for refunding these debts and demand that the laws now applicable thereto be executed and administered according to their true intent and spirit.

The telegraph, like the railroad system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

BANKS TO THE RESCUE.

Deposits Bring the Treasury Above the Hundred Million Mark.

New York, July 24.—The subtreasury officials and staff were rushed yesterday receiving and keeping tally of the deposits of gold made by the New York banks in exchange for greenbacks. All indications point to an aggregate accumulation of the precious metal from banks and institutions in this city and out of town financial centers fully up to the estimate made in these dispatches, namely, \$25,000,000.

Telegraphic advices were received in the street that the initiative of the New York bankers for the building up of the treasury gold reserve was being followed up zealously in Chicago, Boston, Philadelphia and other principal cities. The corrected official total of deposits at the subtreasury from the inception of the movement to the close of business yesterday is \$15,755,000. The deposits bring the treasury gold reserve up to approximately \$102,564,528.

MEXICAN METEOR

Makes a Great Hole and Destroys Two Persons—A Girl's Prophecy.

CITY OF MEXICO, July 24.—The government will not accept Minister Romero's resignation, holding him in too high esteem as a successful diplomat to allow him to retire at the present and regard him as possessing the good will of the American government and people. Romero will start for Washington at once.

A company of Mexicans and Americans will develop the water power at the mouth of the great drainage tunnel, and it is believed the power can be utilized for lighting the city.

At the mine of Santos Reyes in the state of Chihuahua at 3 o'clock yesterday a tremendous explosion was heard and an enormous mass of burning matter was seen to fall from the heavens striking the side of a mountain and bringing down with it in its course entire cliffs and finally plunged 700 feet into the ground, making a hole from which boiling water still issues.

One of the most singular phenomena observed was the heavy rain falling from the sky immediately after the descent of the meteor. The people are very superstitious, as this is one of the many realizations of the prophecies of the vision-seeing girl of Tobasco. The same meteor destroyed the house of a miner, killing his two children.

REFUSE TO PAY.

City Asked to Pay the Expenses of Pingree Potato Patch at Pittsburg.

PITTSBURG, July 24.—One of the greatest sensations in the history of alleged philanthropic movements in Pittsburg was unheated yesterday. Some weeks ago a number of prominent men and women who pose as philanthropists organized the Civic club to help the poor on the Pingree potato patch plan.

Owners of vacant land gave the use of it. Men were hired to do the plowing and considerable money was spent for seeds, etc.

Yesterday the Civic club presented the bills for the work to City Controller Gurley and asked that the city pay them. The controller refused. He said the whole movement has passed all along as philanthropic, and the attempt to make the city pay the bills is preposterous.

Greatest Cargo Ever Carried.

CHICAGO, July 24.—The big steel cruiser Queen City has again broke a cargo record. The amount given out by the tallymen when the spouts were taken from the hatches was 202,000 bushels of corn. This exceeds all previous records by 37,000 bushels on a draft of 16 feet 3 inches forward and 16 feet 9 inches aft. The Queen City broke the Lake Superior iron ore record on her trip from Two Harbors to South Chicago by carrying 4,067 gross tons on a draft of 14.4 feet. Her present cargo weighs 5,700 tons and would have loaded 100 schooners of the old days. Five years ago a cargo of half the size was considered a big load. It is, without a doubt, the largest cargo ever carried on the lakes.

Receivers Take Charge.

MANITOWOC, Wis., July 24.—Messrs. Whitcomb and Morris, receivers of the Wisconsin Central road, formally took possession of the branch of that road between Neenah and Manitowoc yesterday. Great interest was manifested in the event and large crowds were present from the surrounding country. Mayor Torrison delivered a speech of welcome and addresses were made by President Abbott, H. G. Kress, Joseph Vilas and Receiver Morris. A car ferryboat will transfer cars and passengers to Ludington, making the shortest route from west to east.

WILMINGTON, Del., July 24.—Samuel Melville and W. H. Kevan, single tax speakers, were arrested at Dover for speaking on the streets without a permit. They were fined \$10 and costs, in default of which they were sent to jail for 30 days. This makes five speakers now under arrest.

FIRE-SWEPT FORESTS.

Mountains Surrounded by Raging Walls of Flame.

PEOPLE FLEE FOR THEIR LIVES.

Feared That Many on the Colville Indian Reservation Have Met Death—Property Loss Already Amounts to Millions—The Miners Hemmed in by the Flames—Many Narrow Escapes.

SPOKANE, Wash., July 24.—A strong wind has been blowing from the east for the past 24 hours, clearing the atmosphere here of smoke, but in the mountains to the north the breeze has been the means of fanning the forest fires into raging walls of flame, which are sweeping across the mountains and down into the valleys with terrible rapidity. When the air was still the fire was confined to the mountains and did not creep down into the valleys, but now those who sought safety there are compelled to flee for their lives. Along all water courses, such as the Kettle, Salmon and Columbia rivers, wild game and birds are coming down in great numbers and in their fright become tame and docile.

Word received from Kaslo and points along the Arrow lakes in British Columbia is to the effect that the high wind has fanned the smoldering embers into fresh blazes, and where the miners thought themselves safe, the fire having passed over them, they find themselves surrounded by flames.

In some cases escape is almost impossible, and a number of deaths may be the result. On the north fork of the Salmon river nearly all the cabins and shafthouses have been burned to the ground, together with large quantities of provisions and tools. All citizens of the town are out in the hills trying to prevent the fire from reaching their homes.

It is feared that many on the Colville Indian reservation have met their death. A party came to Kettle river from Turtle creek and three members went back to get some bedding they had forgotten. They have not returned, and as the fire has swept over the place it is feared they have been lost.

The United States Forestry commission is in this city for the purpose of inspecting the forests, but they find they can not go out on account of the fires. From information they estimate the damage at many millions of dollars.

Fighting Flames.

VICTORIA, B. C., July 24.—The southern half of Vancouver island has not seen clear atmosphere for several days, owing to immense bush fires everywhere, causing great damage to property and making travel on country roads extremely dangerous. The worst reports of damage reached this city from Alberni. That city is surrounded by an immense fire which has taken entire possession of "Mineral Hill," a wealthy section. The flames have destroyed all the buildings in the York mine, China Creek, and are now within two or three miles of town, having burned numerous camps, bridges, etc.

There were many narrow escapes from death. Women and children had to be kept under the piping of hydraulic mines and drenched with water to prevent them from being scorched. The property loss has already amounted to millions. Unless rain comes soon large tracts of timber along the Fraser river will be destroyed. Firemen are busy night and day fighting back the flames in every town on the Canadian coast.

North of Seattle.

SEATTLE, Wash., July 24.—Forest fires last night destroyed the logging camp of M. M. Clothier & son, at Central station, on the Bellingham Bay and British Columbia railway. The loss is estimated at \$20,000. The entire country north of here is in flames. Four freight cars and considerable side track of the Bellingham Bay and British Columbia railroad were destroyed at Everson. The flames are gradually working toward Whatcom.

ONE BOY KILLS ANOTHER.

A Blow From Harry Rudolph's Fist Caused Grover Hanson's Death.

CHICAGO, July 24.—Harry Rudolph, age 11, struck two blows with his puny fists last evening and his opponent, Grover Hanson, age 9, fell dead at his feet. The lads were having a boyish quarrel, and young Hanson started to run. Rudolph followed, and catching the lad near the curb, struck him in the face and abdomen. Little Hanson covered his face with his hands, fell backward and expired.

Young Rudolph was locked up by the police. The physician who examined young Hanson gave it as his opinion that the lad died from cerebral congestion, resulting from a shock affecting the heart action.

BY AN OPEN WINDOW

Sat the Dead Body of William Dewberry, an Old Man.

BRAZIL, Ind., July 24.—About 10 o'clock yesterday morning, as pedestrians were walking along the corner of Main street and Forest avenue, they saw an old man sitting by an upstairs window staring out. For several hours he sat there, until the people grew suspicious and investigation followed, when they found the man to be William Dewberry, 65 years old, who was dead. He had died of heart disease while sitting by the window. He was one of the oldest residents of the city.

The McKinleyites are a badly scared lot of people. They begin to feel it in their bones that Bryan and free silver will sweep the country.

WELL, well! What do you think of this? According to a report at Washington, the Republican managers are playing a double game to catch silver votes for McKinley. They are said to be sending out through the South and West, where the silver sentiment is strongest, some of McKinley's speeches, showing him in favor of silver.

WHILE the New York Sun talked of "the anarchical ticket made by Tillman and Altgeld" in its editorial columns, its news dispatches were replete with paragraphs, written by Chicago correspondents, who asserted "that every time Tillman or Altgeld arose to speak they were hissed." The Sun should more closely prune its news, very pertinently remarks an exchange.

THE Philadelphia Times suggests to Mr. Bryan that he overlooked a scriptural allusion in his great speech at Chicago. An incident in the career of another brilliant young man who rose to the chief place in his nation, might be presently pertinent. It is recorded in the first book of Samuel, viz:

David, therefore, departed thence and escaped to the cave of Adullam; and when his brethren and all his father's house heard it, they went down thither to him.

And every one that was in distress, and every one that was in debt, and every one that was discontented, gathered themselves unto him; and he became a captain over them.

"The Times overlooked the fact," says the Mt. Sterling Advocate, "that David soon afterwards became king, and that his country under him reached a height of prosperity never equaled before—Selah!"

"It is perfectly clear to most thinking men," says the Hunterdon (N. J.) Democrat, "that the financial distresses that have rested upon the country so long a time, and the great and wide-spread dissatisfaction among the rank and file of the people, are entirely due to the class legislation of the Republican party for the thirty years preceding 1892. And it is at their door that must lie the responsibility for the lamentable hostility of the middle classes against the very rich who are known to have acquired their millions through wickedly unfair favoritism in the pernicious laws dictated by them and made operative by these same Republican public servants—beg pardon, we mean private snip servants.

"Shall we then restore that party to a power that has been so abused, so disastrously employed against the multitude? Do we so hate the Chicago ticket and platform that we can embrace once more the political syndicate of private speculators in the country's sweat and toil, and for another long term of years bow our necks to the galling yoke? Have we stopped long enough to consider the Chicago ticket and platform, and to ask ourselves why we oppose them? What is the bogey about either?

"Fellow-Democrats of Hunterdon, do not let us be foolish and encourage hostility to the new Democracy. Let us give it a trial. We know by sad experience a good deal about the Hanna-McKinley brand of government conductors. Avoid the wreck train!"

PATRIOTISM PERSONIFIED.

Those who have been charging that the Chicago convention, its principles and its candidates are anarchistic and revolutionary, should blush with shame at the patriotic words expressed by Mr. Bryan in his Salem speech, says an exchange.

In spite of the serious problems which now confront the Nation, Mr. Bryan has abiding faith in the people, of which he says:

"Talk not to me of crises through which we can not pass. Tell me not of dangers that will overthrow us or obstacles too great to overcome. We know none such. A brave, a heroic, a patriotic people will be ready to meet every emergency as it arises. Each generation is capable of self-government, and I believe each generation will be more capable under our institutions than the generation which went before."

THE FINANCIAL QUESTION.

Silver as a Redemption Factor—Its Demonization—Some Points For Democrats.

No more undemocratic measure was ever devised by the party of the rich man and capitalist, than the one that wrested silver from its true and rightful place along with gold as a redemptionary factor.

It's a mighty hard thing to do to please everybody with candidates or platforms either: some men always imagining themselves of so much importance that they shall be ruined financially or otherwise should certain men or measures prevail.

It's amusing to hear men of small means and land owners whose land has been reduced to almost nothing in price comparatively by the present vicious money policy, claiming they don't know how to vote, when a child even should be expected to know that the true interests of these are assuredly not with the gold barons and such.

A great many delight in the appellation of "gold men" whose real interests lie with those who favor the restoration of silver to its former place in money, and yet who don't seem to have the intuition to perceive it. Those who deal in money or its equivalent alone, are the only ones to be benefitted by a continuance of monometalism.

It's a large sized contract that the Republicans have taken to try to make men who can't sell any kind of crop for much more than the cost of production, believe that the grossest financial mismanagement isn't the real and only cause for such a state of affairs, and we'd much prefer they had such a contract than we ourselves.

The fact that just what was predicted by so many Democrats as well as Republicans at the time silver was demonetized, that great financial distress would result,—has been verified to the letter, has given the silver men a mighty courage in the great conflict now going on.

It would be just as contemptible and puerile for a Democrat to refuse his support to Mr. Bryan for the reason that he might not like his views on religion or temperance as to work and vote against him on account of his financial views: especially one who may have been honored by his party with office one or more times.

Those chaps up and down Wall street, the real "gold bugs," those who have the "yellow boys" in their breeches and in their vaults, and who sometimes vote the Democratic ticket, when it suits them, don't care a continental who's President so's they have the shaping of his financial views. It does look like everyone ought to have sense enough to have found this much out long ago.

Nowadays when women are trying to do everything it is not strange that many things are overdone. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops. Working in this way has manifold evils. The most common trouble resulting from overexertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No gripping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually.

SEES HIS ERROR.

A Prominent Kentucky Gold Man Converted.

RICHMOND, Ky., July 16.—David M. Chenault, one of the most prominent lawyers in this section of the country, and a director in the Richmond National Bank, has come out squarely for Bryan and Sewall. Last fall Mr. Chenault was the candidate of the gold Democrats for the Legislature, but was defeated. Mr. Chenault says it would be impossible for bankers to redeem their outstanding gold notes in coin. It would be impossible to get gold from the debtors of the bank, because they have no gold. He wants gold and silver both, at the present nominal ratio, to redeem our obligations. They could do that and suffer no loss. He is afraid of the new and untried way of the single gold standard. As Mr. Chenault is one of the ablest, squarest and most popular men in this county his opinion will carry great weight with both farmers and business men.

What This Republican Expects.

LAWRENCEBURG, Ky., July 23.—Editor J. M. Birdwhistell, of the Anderson News, makes public to-day a letter received from Hon. A. A. Lewis, of Somerset, in which he says he has always been a Republican but will support Bryan and Sewall next November. Mr. Lewis further says he expects to deliver a speech at the Somerset court house and that forty or fifty Republicans who have heard of it have informed him that they are with him. Lewis expects Pulaski to flop from 1200 Republican to Democratic next November.

The five-year-old son of Mr. John Rash, living at the head of Owl Hollow, east of this city, was kicked by a horse Thursday and seriously injured.

They All

Come Back

"There are fads in medicine as well as in other things," said a busy druggist, "but the most remarkable thing about Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this great medicine keep up and continue the whole year round, steady as a clock."

"Why is it?" "O, simply because Hood's Sarsaparilla has more real curative merit than any medicine I ever sold." This is of daily occurrence in almost every drug store. Hood's Sarsaparilla has cured more sickness, and made more happiness through restoration to health than any other medicine.

Hood's Sarsaparilla

Is the standard—the One True Blood Purifier.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

WHAT'S WRONG?

When Farm Products Sell So Cheap There's Something "Out of Whack."

[Cincinnati Post.]

Country produce was cheaper in the lower market Thursday morning than it has been for the past ten years.

"There are forty-five bushels of tomatoes on that wagon which I will sell for 10 cents a bushel," said Tom Jenkins, owner of a farm near Amelia. "There is good corn selling at 2 cents a dozen and peaches for 20 cents a bushel. It is, in fact, the dullest market I have seen in ten years."

"There are good new potatoes in that wagon there," he continued, "selling at 75 cents a barrel. Several have been selling them as low as 60 cents."

Several farmers sold out tomatoes at three bushels for 25 cents

SPRINGDALE.

A five-year-old son of Mr. John Rash, living near the head of Owl Hollow, was kicked and seriously injured by a horse about 10 o'clock Thursday morning.

Mr. George Jenkins is erecting a store and toll-gate house in Junction City, and will try for a postoffice when Bryan is elected.

The rip-rap wall on the Springdale pike has been crushed and now vehicles can pass over the road without any danger of a break down.

HERB MEDICINE CO. SPRINGFIELD, O.

FOR BRYAN.

The Sun, of Lawrence, Mass., Has Flopped.

LAWRENCE, Mass., July 21.—A sensation has been caused here in journalistic circles by the course of the Daily Sun, which, up to the present time, has been Republican in National politics.

Editor Thomas H. Murray has nailed the colors of Bryan and Sewall to the masthead in opposition, he declares, to the "conspiracies of the oligarchy."

He holds that the Chicago platform was framed largely as a protest against the Government by injunction and against the encroachments of the money power.

He mercilessly assails the bolting Democrats, whom he places in the same category with the "Hanna-McKinley puppets at St. Louis."

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

BASE BALL.

Rain Stopped Yesterday's Game—The Boys Go to Lexington and Knoxville Next Week.

The base ball clubs have been playing in hard luck this week. A great many of the games in the big league and elsewhere have been prevented by the rainy weather. Maysville has been getting the worst of it along with the rest of 'em.

Yesterday's game with the Spiders had to be called at the end of the second inning. It was not commenced until 3:15, when there was a let-up in the rain. The grounds were not in condition then, but the boys thought they could slip and slide through five innings anyhow. A regular downpour soon set in, however, and the game was called.

Scheidel started to pitch for the Spiders. He was wild and sent the first three men up to first by hitting one and giving the others four bad ones. In the two innings four runs were scored by the Maysvilles. Leever was in the box for the locals, and the visitors were blanked in both innings.

Don't forget that the Louisvilles will play here August 10th.

The Maysvilles go to Lexington Monday for two games and will then finish the week at Knoxville.

Captain McGann was given a rousing reception at the park yesterday. His appearance was the signal for cheers.

River News.

No coal ready for shipment from Pittsburg on this rise.

The City of Louisville brought 3,600 bushels of peaches to Cincinnati one day this week.

The New Haven passed up one day this week with a tow of over thirty shanty boats.

The U. S. Snagboat E. A. Woodruff is coming down the river on a snag clearing expedition.

During the past six months, the steamer Maggie towed over 4,500,000 bushels of coal from the pools to the harbor at Pittsburg.

Bay Bros. have purchased one of the old bells from the fire department at Portsmouth, and will use it on their new boat which is about completed.

The heavy rains this week brought out all the side streams, and there will be a big river for some days to come. About fifteen feet at Pittsburg Thursday and still rising.

The Trilby, a new boat built by Captain Flesher at Levanna, is at Portsmouth. She will have her machinery put in by the Portsmouth F. and M. Works and will be run in some trade above.

A Child Enjoys

Death of a Native of Mason County.

A paper published at Searcy, Ark., says: "On June 28th, 1896, Miss Lizzie M. Coburn died at the residence of her brother, Mr. John Coburn, in this city, after a lingering illness of many years. The deceased was born in Mason County, Ky., June 28, 1857, and died on her birth day, being thirty-nine years old. She was an exemplary member of the Baptist Church from her childhood, and most highly respected by all who knew her. She leaves a disconsolate brother to mourn because of her death—her father, mother and eight brothers and sisters having preceded her to the Better Land within the past twelve years."

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested? Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

MR. THOMAS REA, living on East Fork of Cabin Creek, had eleven hogs washed away by the flood in that stream this week. Eight of them finally succeeded in reaching shore and were recovered.

THE Frankfort Argus is cruel enough to say: "More than \$500,000 have gone out of the State Treasury through Democratic influence and votes to the Courier-Journal syndicate. The patronage has been cut and now the syndicate cuts the Democracy."

A WRITER truthfully says that young men cannot make a success in life without working. Older men have tried it and failed. You cannot loaf around the street corners, smoke cigarettes, tell stories, drink and sponge on someone else and make a success in life. You must learn a trade or get in some honest business.

A SENSATIONAL damage suit was filed in the Circuit Court at Lexington this week in which J. W. Nelson, proprietor of the Hawaiian Hair Elixer Company, of that city, prays for \$20,000 damages from T. C. Robinson, of Winchester, for injury done his character. He alleges Robinson wrote a letter charging him with being a thief and liar.

Bryan's Ancestors Lived in Mason County.

The mother of William Jennings Bryan, Democratic nominee for President, is a granddaughter of Israel Jennings, who located near Maysville in 1802, "and drifted into the interior of Kentucky, thence to Illinois," says a writer. "It is not improbable," adds the Dover News, "that she is related to the Jennings family of Mason County, and if so, Mr. Bryan has relatives right here in Dover. Be that as it may, he has the hearty support of a large majority of the voters of the county."

WHAT MAYSVILLE LOST.

When She Failed to Secure This Manufacturing Plant.—The McEwan Bros.' Strawboard Works.

Seven or eight years ago a member of the firm of McEwan Bros. came here from the East, with a view of securing a location for a strawboard and paper factory. He spent some time in Maysville with his uncle, Major John Walsh, and consulted with a number of our citizens about the enterprise. No encouragement was given him, however, and he finally returned home.

The firm of which he was a member then went to Morristown, N. J., secured a tract of land four miles from the city and erected their factory.

This factory has grown until to-day it is probably one of the largest enterprises in New Jersey. The buildings alone cost \$200,000.

The firm controls a patent process for making strawboard and paper, and in addition to straw they use all the old paper they can secure.

The output of the factory now is eighty tons a week, and they can't supply the demand. Large quantities of the output are shipped to Europe.

The factory has resulted in the building of a town, known as Whippany, and which now has a population of about 600. The firm, besides erecting the factory, has built a railroad from Whippany to Morristown, and this is also proving a profitable enterprise.

The payroll of the factory is \$1,000 a week,—\$50,000 a year.

Major Walsh returned a few days ago from a visit to his nephews. There are five members of the firm.

The success of their factory and their profits from the investment in real estate have placed them on the shady side of Easy street.

They contemplate erecting a branch factory, and if they do so may come to this section for a location. Here's a pointer, especially for the owners of Maysville's unimproved real estate.

A TRIP BY MOONLIGHT.

That Excursion to Ripley Wednesday Night a Most Delightful One.

Night had dropped her sable curtain and pinned it with the stars, and the moon, the fair goddess of night, shone in all her beauty.

The night could have been no fairer for the merry boating party which left this city Wednesday evening for a sail upon the beautiful Ohio. The occasion and pleasure of the trip is due to the Catholic young men of this city. The boat glides on. The light-hearted lads and lasses trip the light fantastic to the sweet strains of Clifford's orchestra.

The scene was one never to be forgotten. The happy throng, the sweet music, the clear blue sky studded with a myriad stars, the moon gleaming forth, with a radiance as bright as day, and the face of the beautiful river lit up with her bright beams. With all the scene was one that awakens beautiful thoughts to the soul, and as the hour of midnight drew near the merry crowd reached home with these thoughts:

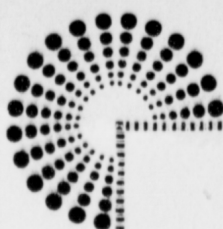

'Tis midnight hour, the moon shines bright,
The dew-drops play beneath her ray,
The twinkling stars their trembling light
Like beauty eyes display.
Then 'round thy heart
Some tender dream may idly play,
For midnight song with magic art
Shall chase that dream away.
'Tis hoped the occasion will soon be repeated.

SILVER PARTY KILLS TIME.

St. John Permanent Chairman—Waiting For Populists to Confer.
St. Louis, July 24.—Procrastination was the pronounced feature of the silver convention yesterday. It was anything to kill time from start to finish and practically no business of importance was transacted. But it developed beyond a peradventure that the delegates, with a very few exceptions, are for Bryan and Sewall and there is little doubt that they will be nominated. Every time their names were mentioned there was an outburst of applause, and their names were mentioned frequently.

The delay was for a purpose. It was engineered by the leaders and about the only opposition to the delay came from Kansas. Both Baker of California and St. John of New York explained in speeches to the convention that to adopt a platform then would be an insult to the People's party convention. In order to unite the free silver forces they said it was necessary to give the People's party a chance to appoint a conference committee to confer with the one appointed by the silver convention yesterday.

Kansas opposed this and wanted to go ahead and finish the work and adjourn. But Kansas failed. The delegates agreed that nothing should be done until after the conference, and the day was given over to speechmaking and anything else that could be used to kill time. Turner of Kansas said that the platform committee was ready to report and demanded that the report be received and acted upon. The convention refused by an overwhelming vote.

Every influence that can be brought to bear upon the People's party will be applied to induce it to come out for Bryan and Sewall.

The convention was slow in assembling at both the morning and afternoon sessions. The forenoon was given over to speechmaking, and the afternoon to speechmaking and other trivial matters. The day was hot and sultry and the attendance of visitors was scarcely 200.

Congressman Towne of Minnesota, ex-Governor John P. St. John of Kansas, Helen Gougar of Indiana and others addressed the convention.

Banker St. John of New York was elected permanent chairman.

MAD FOR BLOOD.

Mohammedan Rebels Defeat the Imperial Chinese Troops.

VANCOUVER, B. C., July 24.—The steamer Empress of India has arrived from the Orient, bringing advices to July 8, as follows:

Imperial Chinese troops were recently sent to Lan-chow to suppress the Mohammedan rebels, who had risen against the authorities. The rebels routed the imperial troops, and seemed to have totally annihilated them, although the imperial troops were better provisioned and equipped. There were plenty of troops sent to subdue the rebels, and all are either killed or missing. The rebels are now mad for blood, massacring all in authority, killing and pillaging on the triumphant marches through the country. Eight thousand troops will be sent, but it is thought will be killed off like the rest. It is said that it will take an army of 50,000 to subdue the savage Mohammedans.

On Fire at Sea.

NEW YORK, July 24.—The British steamer Glenloig, which arrived here yesterday from Hamburg, reports that on Tuesday, July 21, the little steamer Elliott of Charlottetown, P. E. I., was spoken. Captain McDonald of the Elliott said he was on a voyage from Philadelphia for Halifax. That morning at 10 o'clock a fire started in the bunkers which extended to the main hold. Every effort was made to stop the progress of the fire, and the captain believed that he had succeeded in getting it under control. No assistance was desired.

For Threatening to Kill.

WEST UNION, O., July 24.—Emory Kibler, an aged citizen of Manchester, has been bound over to court in \$300 for threatening to shoot James Bradford of the same town. Young Bradford was promenading with a couple of lady friends Tuesday evening when he accused Kibler of following him, whereupon the latter, it is said, pulled a revolver and threatened to kill Bradford.

A Booty Carrier Shot.

BELLAIRE, O., July 24.—A party of five men were seen going through Belmont last night carrying bundles. Their suspicious action aroused some of the citizens, who gave chase. Shots were exchanged and in the melee one of the strangers was badly wounded. The bundles contained goods stolen from Levi Cassel's store. All escaped.

Boxing Goes.

NEW YORK, July 24.—Judge Osborne of the supreme court, Brooklyn, yesterday handed down a decision granting the mandamus asked for to compel Mayor Wurster to grant a permit to the Surf Athletic club of Coney Island to conduct sparring exhibitions in their quarters.

Newspaper Ordered Sold.

NASHVILLE, July 24.—Yesterday, by Judge Clark in the United States court, a decree was entered ordering a sale of the Nashville American upon the application of the first mortgage bondholders. The sale will be the latter part of August.

Eel River on the Rampage.

BRAZIL, Ind., July 24.—The damage to crops in the Eel river bottoms of this county is believed to be more than \$1,000,000, while the river is still rising. The river at Bowling Green is over two miles wide, and the people are traveling around in boats.

A Serious Charge.

TERRE HAUTE, Ind., July 24.—Reuben Newhart, a former restaurant man of this city, was captured here last night and returned to Effingham, Ill., where he escaped from jail yesterday. Newhart is charged with assault with intent to kill.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
